

Leo likes to play soccer with his friends. He loves to score goals and slide across the grass when it rains. He used to have trouble hearing his team mates because he had to take out his hearing aids whenever it rained. Now Leo has his new pair of water-resistant hearing aids and can play as often as he likes.

Help Leo to score a goal by coloring him in your favorite colors and use the Quiver app to get him to play. Share your creation on social media using #coloringleo
